# IL NOSTRO T-E-A-M

## E S A O

When the window of the selected text of the previous slide opens, the window automatically opens dialog to save this selected text in a text file, this to make you further research with all the key words that you consider necessary. Obviously in the dialogue window the pressure of the cancel button inhibits this potentiality

# IL NOSTRO T-E-A-M

## E S A O

We see in the last slide how the text save file contains TWO information, the LINK of the selected site and, separately, the selected text. The link is reported because there is a precise reference to which site the selected text refers to, regardless of the nomenclature adopted for the name by the researcher.
